Tourist farm Urška

At the Urška Tourist Farm accommodation is provided in 5 double-bed rooms: Marija, Tinkara, Cilka, Hana and Manca. Special experiences, such as sleeping in a hayloft, gazing at the stars, collecting eggs from the hen house, visiting the neighbouring farm, helping to bake bread or taking part in a felting workshop – these are the stories that bring us together and that will make your experience a unique one.

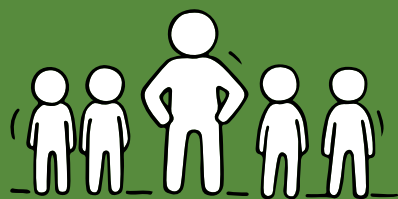

Location

Access: When you get to Stranice on the main road from Celje to Maribor, take the road for Vitanje.

There is a right turn signposted for Križevac about 400 metres further on. Follow the signpost and you are soon at your destination.

Linking economies and stakeholders for commercial partnership

Activities & Commercial Model

Wellbeing

The Urška Tourist Farm is well aware that quality living requires vital strength and energy. To restore them in this world of frenzy, they have built a house of wellness featuring steam and Turkish baths, massage showers, a jacuzzi, a hay bath and a room for relaxation.

Within its 100 square metres, guests will also find a place for refreshments with homemade herbal tea and organically grown apples. They offer unique experiences of barefoot walks through the morning dew; sleeping on a bed of hay and a pool surrounded by meadows.
